

## **HLAA free Webinars**

**November 10, 2011 7:00 p.m. (EST)**

**Holiday Hearing Strategies** (Brad Ingrao)

Holidays are a time for families, friends and, for hard of hearing peoples, FRUSTRATION! This webinar will discuss some of the reasons why "holiday hearing" is so challenging and will offer several tips and tricks to make connecting with your loved ones more enjoyable.

**December 8, 2011 7:00 p.m. (EST)**

**Basic Acoustics and Electronics** (Brad Ingrao)

People with hearing loss are dependent on the electronics in their hearing devices as well as the physics of sound (acoustics) of every room they listen in. This webinar will describe the basics of both acoustics and electronics as they relate to hearing loss and hearing technology.

**January 10, 2012 7:00 p.m. (EST)**

**Limitations of Ear-Level Technology** (Brad Ingrao)

While it is true that hearing technology has never been better there are still, and always will be, limitations to what a microphone-based listening system on your head can do in certain settings. This webinar reviews what factors will decrease your hearing device effectiveness and how to overcome them.

**February 16, 2012 7:00 p.m. (EST)**

**Technology in the Workplace** (Esther Kelly)

Do you use walkie-talkies or two-way radios at work or answer multi-line telephones? If so, you know how hard it can be with hearing loss. Learn "outside of the box" solutions to these and many other workplace difficulties for people with hearing loss. Esther Kelly will cover up to ten workplace situations and offer solutions and ways to overcome difficulties using technology in the workplace; including creative ways to use FM systems to interact with co-workers and students.

All times are for Eastern Standard Time (EST). For more information and to register, visit <http://www.hearingloss.org>.
